(54) Title: DEVICE FOR SURVEYING THE PRESSURE OF FLUIDS HOUSED IN TANKS OR FLOWING THROUGH DUCTS

(57) Abstract: An apparatus for surveying the pressure of flu-  
ids housed in tanks or flowing through ducts comprises a de-  
vice (100), an envelope (1) with axial symmetry which forms  
the external covering of the device (100), said envelope (1) be-  
ing kept in distal position with respect to a connecting body (2)  
by a counter spring (3); the envelope (1) axially slides with re-  
spect to the body (2) to allow the commutation of the apparatus  
(100) from a non-active to an active condition; the commutation  
of the device (100) is due to an external force (F).
